Laser Infrared Thermometer

A laser infrared thermometer is a precise and non-contact temperature measuring device that utilizes a laser to target and measure temperatures from a distance. It provides quick and accurate readings, making it suitable for bedbug eradication.

25' 220-Volt Extension Cord

The 25' 220V extension cord is a convenient accessory that offers an extended reach for your electric equipment, ensuring flexibility and convenience in your setup. It allows you to easily connect and power your devices without being restricted by short cord lengths.

FREE Detailed Field Guide for BedBug Eradication

The free detailed field guide for bedbug eradication is an invaluable resource, providing essential information and guidance to effectively eliminate bedbugs. Packed with expert tips and step-by-step instructions, it empowers users with the knowledge needed to tackle bedbug infestations confidently.
